

Nik Aein Lohrasbi

Urban Planning Student · Urban Research, Field Survey & Visual Presentation

Tehran, Iran ♦ +98 933 418 6564 ♦ lohrasbi.nik@gmail.com

Availability: part-time or internship, alongside studies ♦ Military service: student exemption

◆ PROFILE

Third-year urban planning student with hands-on experience in field survey, analytical framing and report writing from a full neighbourhood study; advanced English and Photoshop, and working AutoCAD for presentation boards. Seeking a part-time or internship role in urban planning, geospatial data (GIS), research, or specialist translation and content writing.

◆ EDUCATION

B.Sc. in Urban Planning Engineering

2024 – 2028 (expected)

University of Science and Culture (Elm-o-Farhang), Tehran

◆ ACADEMIC PROJECTS

Qolhak Neighbourhood Study, District 3, Tehran

Spring 2026

Urban Analysis Studio ♦ With S. Tavassoli ♦ Supervisor: Dr. Masoud Dadgar

- Developed the report's analytical framework and method, based on Lefebvre's theory of the production of space
- Conducted field survey and photographic documentation of the Yakhchal axis: serial vision, street frontage and skyline, sidewalk conditions, vacant parcels
- Co-wrote the 58-page report: diagnosis, SWOT analysis, policy recommendations and intervention zones

◆ SOFTWARE

Graphics & presentation	Photoshop (advanced), Premiere (intermediate), Illustrator (basic)
Drafting & modeling	AutoCAD (intermediate), Revit (basic), Rhino (basic)
Data & analysis	Excel (intermediate), SPSS (basic)
AI tools	Research synthesis and literature review, research workflow automation, AI-assisted drafting and editing, AI-assisted coding (web development with Next.js) Tools: Claude, ChatGPT, DeepSeek

◆ RESEARCH SKILLS
